

# Axia<sup>®</sup> the new artform in plasma stand design

*With its emphasis on sleek design and flowing form the Axia range adds style from the home to the boardroom and anywhere in between.*

*Axia stands & trolleys provide the neatest answer to installing Plasma or LCD TV.*

*It takes just a few minutes to set up your screen and other equipment which avoids all the complications of drilling and chasing in cables when screens are wall mounted.*

*These elegant and adaptable units can be placed anywhere in the room and positioned to achieve the ideal viewing angle.*

*Lo-level versions are great for home cinema while the Hi-level models provide quality and style for any boardroom or commercial display.*
